

EARLY WEAVES

Technical Requirements

People on tour: 2 performers, 1 technician

Space Requirements: We require a flat space of a 6-8m diameter circle; however the piece is adaptable and flexible to different sizes.

For indoor performance the floor is ideally sprung or semi-sprung. If available, long benches or chairs are useful to add lifted seating areas, as well as eclectic cushions and rugs for the younger audience (see example on right).

For outdoor space, can be performed on flat grass (not after excessive rainfall).

We provide:

- 5 x willow panels, for the set (which is free standing)
- Various sized baskets, which mostly fit inside each other
- A small selection of hand-held individual willow props
- A hemp rope, to mark the space

Get in time: 120mins (theatre space), 45mins (outdoor/space without lighting)

Get out time: 60mins

Running time: 40mins performance + 15mins stay and play (**approx. 55mins total**). Performed up to 2 times per day.

EARLY WEAVES

Technical Requirements

Weather (outdoor space): The dancers cannot perform in heavy rain as this will cause injury to the team. In the event of bad weather, performers will seek out a covered space (where available) to continue the performance. However, if conditions are too bad then the show will either be postponed until the weather improves or cancelled.

Steward Support: We require 1 steward to monitor the set between and during performances/walkabouts to ensure the safety of the public and set.

Sound: We require 2 x PA speakers (and leads) with adequate sound to cover audience at all levels and the performance area. The sound is operated by our Stage Manager with a company laptop (AUX lead/connection required). We can provide our own PA at an additional cost - please enquire for more details.

Dressing Room: We require 1 dressing room / indoor changing space.

Lighting: Simple lighting (no special effects). Outdoor performances will run without lighting.

Insurance: Ascension Dance is fully risk assessed and has public liability insurance to the value of £10 million.

Parking: We require a space for one vehicle (small van).

Accessibility: Easy Read Guides are available to audiences in English and are to be promoted by the festival/venue and our company prior to the performance.
